

Project Management for Senior Managers

Senior Management Workshop

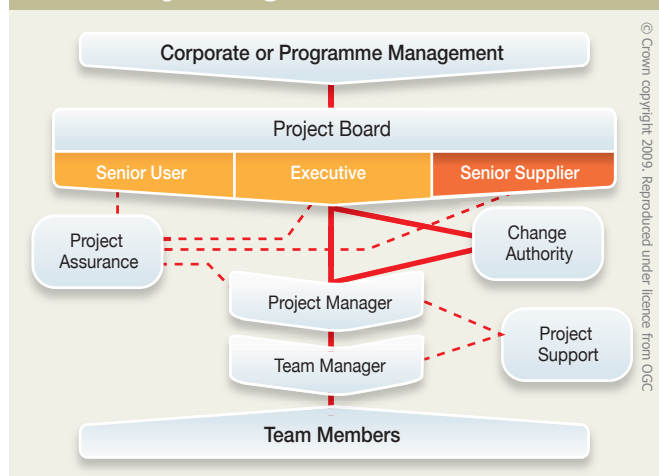

Adopted by many government and private enterprises and practiced by +600,000 users world-wide, PRINCE2® is a project management methodology that benefits projects of different types and sizes.

PRINCE2 is viewed as 'de-facto' world's best practice project management as it ensures projects remain viable and an agreed governance framework is applied from the start through to the closure of the project.

The Senior Management program is delivered in a workshop format as either a half day or full day event.

Project Organization Structure

Workshop Aims

- This workshop is designed to present the logic and value of best practice project management to a Senior Management team.
- The participants will be presented an overview of all PRINCE2's principles, processes and themes.
- The workshop will focus on Senior Management's responsibilities in a project, how they can influence the success of a project and monitor a project without regular meetings.
- Key PRINCE2 terminology and management products will be introduced throughout the workshop.

Who should attend this workshop?

Senior Management responsible for projects and wanting to know how they can effectively contribute to the success of a project.

By the end of the workshop participants will be able to:

- Communicate using key PRINCE2 terminology
- Identify the role of senior management during a project
- Use PRINCE2 tools for Senior Management to facilitate 'management by exception'
- Use PRINCE2 terminology to question if the project has been appropriately set up and is being properly executed.

To support the different ways people learn, the workshop includes a mixture of presentation, class and group exercises and discussions.
